Hike Leader Index

The following is a list of IHC hike leaders and the hikes they led from January 2000 through May 2010. In the future, we hope to extend the index to include hikes prior to January 2000. The list is sorted by hike leader. Each entry includes the date the hike last appeared in the schedule, the hike title and the distance. Only the most recent occurrence of a hike is shown. The Pathfinders use this list to find hike descriptions in past schedules. If you are interested in obtaining a hike description that appeared in a past schedule please email Joan Griffitts at j.griffitts@sbcglobal.net and advise her the leader's name, date and hike title you are interested in. Joan will email the description back to you.
